2025 Erwin-Ramsey FELLOWSHIP PROGRAM

brwarchitects hosts the Erwin-Ramsey Fellowship for graduate and fourth-year undergraduate Architectural students each summer. Students from the University of Virginia, Virginia Tech, James Madison University, and Hampton University may apply. One Fellowship is awarded each year.

The Erwin-Ramsey Fellowship aims to deepen architectural contributions to the city of Charlottesville, where the firm has worked for the past 40 years. During this intensive three- or four-week program, the Fellow will design a research project focused on addressing a community need for residents of Charlottesville. **brwarchitects** will provide the Fellow with resources and mentorship, as well as a network of professional and community relationships.

The Fellow should develop a project or focus which culminates in a presentation, workshop, or other public event, as well as a final deliverable. Past projects have included:

- A workshop using human-centered design principles to proactively design accessible spaces.
- An exploration of community agriculture solutions to food scarcity for public housing residents.
- Design strategies to engage underserved youth and teen populations in Charlottesville.
- An affordable housing development curriculum for faith-based congregations.
- Interventions in civic spaces, investigating the social ownership of public spaces.
- A community resource for holding the City accountable to its affordable housing promises.

Adjaye Advocacy

Adjaye Summer Apprentice Recruitment Guidelines

March 2025

Program Goal

The Adjaye Associates New York Summer Apprenticeship aims to foster a holistic work environment that is committed to the ongoing mentorship, education and professional development.

Program Description

This summer, each apprentice will receive temporary employment status and will be paid hourly at a competitive rate with the expectation of a 40 hour work week. Each apprentice will be paired with a reliable mentor who will help the apprentices acclimate to a professional environment while offering a familiar face to encourage camaraderie. Apprentices are an integral part of our office culture - they will be working with like-minded individuals while being integrated into AANY's everyday community. Some skillsets one can expect to learn range from rendering work, material research, modeling, advocacy, package making, and presenting. We are also looking to learn from the apprentices and what skills and insight they have that can further improve our design process.

Apprentice Responsibilities Overview

- 1 Assist project team on preparing presentation drawings
- 2 Internal professional development presentation (topics to be led by apprentices)
- 3 Design development through software use / model making / team collaboration / drawing / sketching
- 4 Post-occupancy evaluations of built Adjaye Associates project(s)
- 5 Office culture and internal advocacy development

AA Recruitment Criteria for Adjaye Apprentices

- 1 BIPOC university students are encouraged to apply
- 2 Apprentices to be in architecture-related program
- 3 Software familiarity is ideal: Rhino, AutoCAD, VRAY, Enscape, Adobe Suite (InDesign, Photoshop, Illustrator, Acrobat PRO, etc.)
- 4 Physical model-making skills ideal
- 5 To be able to work in-person and virtually, as needed

Hiring Schedule

- 1 Apply from March 17 to March 28, 2025
Be sure to following the application instructions, include work sample (not to exceed 10 mb), and resume to the following link:
<https://app.trinetire.com/companies/23542-adjaye-associates-architects/jobs/106103-apprentice>
- 2 Interview process from March 31 to April 11, 2025
- 3 Selections announced end of April 2025
- 4 Apprenticeship to begin in June and end in August 2025

Adjaye Associates

Summer Internship Opportunity - MBB Architects

MBB is seeking summer interns to join our diverse, design-focused architecture firm in New York City. We are looking for individuals entering their penultimate or final year of an architectural degree program. The position is a paid internship and offers individuals exposure to planning, design, detailing and construction administration.

We are a woman-owned, award-winning, interdisciplinary team—including architects, preservationists, sustainability specialists and interior designers.

Applications will be accepted until March 31, 2025. The internship will run from June – August, however, start and end dates are negotiable. Please email a letter of interest, your resume, and a pdf of work samples that highlight your design abilities including academic work (maximum of ten pages) to careers@mbbarch.com. Please include Summer Intern in the subject line. For the position, MBB offers an hourly rate of \$15-\$20 commensurate with experience. The position is a full-time in-office position.

The ACHP oversees the historic preservation review process for federal projects and advises the President and Congress on historic preservation. The agency manages a variety of preservation initiatives to address national preservation issues, such as promoting public appreciation of cultural heritage, reusing historic building stock for housing and other contemporary needs, advancing sustainability and resilience, supporting Indigenous peoples' interests, and youth engagement.

The ACHP is currently accepting applications for 10-week, full-time, paid summer internships from undergraduate or graduate students. Internships may be virtual, on-site, or hybrid. Interns also may receive academic credit if they meet the requirements of their programs.

The deadline to submit applications is March 14, 2025. Learn more about ACHP internships by visiting [this link \[achp.gov\]](https://www.achp.gov) [Links to an external site.](#) and then review the details about this summer's projects and how to apply at the bottom of the page. Applicants will need to submit an online form through the ACHP website and then email a resume. Questions can be addressed to internships@achp.gov.

McLeod Architects | Design Assembly

Design Assembly is an annual community design/build program, led by McLeod Architects since 2012. **Applications are due March 1.**

Annual design/build program for students, "Design Assembly," takes place each summer in a rural New England community. Design Assembly 2025 will be on Squam Lake in the southern White Mountains of New Hampshire.

Design Assembly brings together a team of ten students, three architects, and a builder for eight intensive days to live in a rugged, remote environment while designing and building a project in a rural community. The program is open to students in any undergrad or graduate degree program, and no experience with design or construction is necessary. Student participants experience a real-world project, hands-on learning, and a professional externship with the firm.

The work of Design Assembly has received numerous awards and been featured in multiple publications including *Architectural Record*.

Program details and application information at www.design-assembly.org [\[design-assembly.org\]](#) [Links to an external site..](#)

Spiezle is excited to announce that they are now accepting applications for their summer internship program. Join in an immersive, full-time, 13-week internship that runs from **May 19th – August 15th**. The program is centered around hands-on learning experiences and led by an amazing team! They are looking for applicants who are interested in pursuing architecture, interior design, electrical engineering, landscape architecture, construction administration, or marketing internships in our Hamilton, NJ, Philadelphia, PA, Springfield, PA and Maitland, FL offices. **Applications are being accepted through March 31st.** Please

contact careers@spiezle.com [Links to an external site.](#) to submit your resume or use the link to the [website links to an external site.](#) [Links to an external site.](#) to find out more information.
