Program Details

For **Program Details**, select View/Edit next to the name of your program. Data in these fields are populated from the Program Details section of the AMS. Some fields are read only. For the other fields, please update any information that has changed since it was last reported.

The following definitions apply to the questions in this section:

CIP code: The Classification of Instructional Programs (CIP) was created by the U.S. Department of Education to track programs and fields of study. The format of the code is xx.xxxx. CIP codes for architecture are available [here](#).

Name of academic unit: The name of the department, program, or school in which the program is housed.

Additional location: Additional locations include branch campuses, additional sites as part of a single accredited program, teaching site and study abroad as part of a single accredited program, and online learning as part of a single accredited program. These location categories are defined in the [2020 Procedures](#). Programs initiating or altering additional sites, teaching sites, or online learning must provide this information in the program Annual Report when the changes are made or considered.

Program Administrator: The faculty administrator with direct oversight of the program (e.g. program director).

Academic Unit Administrator: The faculty administrator with oversight of the academic unit housing the program (e.g. department chair, school director).

6. Faculty to student ratio in professional studies courses:

Definition: Professional studies courses are those with architectural content required of all students in the NAAB-accredited program and are the core of a professional degree program that leads to licensure. Knowledge from these courses is used to satisfy Condition 3-Program and Student Criteria.

Faculty-to-student ratios are calculated as the total number of full-time-equivalent faculty teaching the total number of full-time-equivalent students enrolled in the program (for program faculty to student ratio) or in the classes (such as professional courses).

The ratio for professional studies courses should include all courses in the program, including studio courses. The ratio for studio courses is a sub-set of professional studies courses.

The ratio is 1 (faculty): X (number of students). Enter only the number of students. If the ratio is 1 faculty member to 21 students, enter 21.

SECTION 6: STUDENT/GRADUATE ACHIEVEMENT

2024 Annual Report (Master of Architecture) : Annual Report : SECTION 6: STUDENT/GRADUATE ACHIEVEMENT

To complete this section, please review the data below and update the information as needed for the 2024 Annual Report.

1. Retention rate

Instructions: To calculate the retention rate, enter the total number of students newly enrolled in the program during the prior academic year (A). Then enter the total number of these students who returned the second year (B). The retention rate in the program is $B \div A$.

Total number of students newly enrolled in the program during the prior academic year (2022-2023) (A):

60

Total number of students newly enrolled in the program during the prior academic year who returned the second year (2023-2024) (B):

45

Optional: Additional information regarding retention rate (for example, explain if the program is a one-year or a transitioning program):

Total retention rate in program (B-A):

75

2. Graduation rate by track

Definitions: Advertised program length is the amount of time necessary for a student to complete all requirements for a degree or certificate, according to the institution's catalog.

The graduation rate should be calculated separately for each track if tracks have different advertised program lengths. Programs should work backward from the reporting year to identify the entering semester of the cohort graduating at 150% of the advertised program length at the end of the reporting year. For this same cohort, the graduation rate should also be calculated for students who graduated in 100% of the advertised program length. Programs should not report graduation rate data until a cohort has reached 150% of the advertised program length. At that time, the program will report the graduation rate for students from the entering cohort who graduated in 100% and 150% of the advertised program length.

For example, in a two-year track, students graduating in 100% of program length would have graduated in two years and students graduating in 150% of advertised program length would have graduated in three years. Therefore, subtract three years from the reporting year to find the entering cohort for the graduation rate question.

To calculate 150% of program length, multiply the advertised program length by 1.5. If this results in a decimal, round up. For example, students graduating in 150% of the advertised program length for a five-year program would graduate within eight years ($5 \times 1.5 = 7.5$, round to 8 years).

Example: Fifty (50) students entered a two-year program in fall 2021 (2021-2022 academic year). 25 (50%) of those students graduated in two years, in 2024 (100% of program length). An additional 15 students graduated in 2025 (150% of program length), bringing the graduation rate to 80%.

Click "Add" to report on each track.

Add

Job Placement

Instructions: Job placement numbers should reflect students who graduated any time in the prior academic year (the year before the current reporting year) regardless of what track or entering cohort they belonged to. If the program did not have graduates in the previous year, enter "0" and explain in the comment space. Include each graduate in only one of the categories so that the total equals the total number of graduates.

Total number of students who graduated from the program in the previous calendar year (2022-2023):

12

Number of those students who reported their employment status to the program:

12

Number of those students who reported their employment status to the program that are employed in a position related to architecture:

12

Number of those students who are employed but not in a position related to architecture:

0

Number of those students still seeking employment:

0

Number of those students who will be continuing in higher education:

2024 Annual Report (Master of Architecture) : Annual Report : SECTION 7: MAINTENANCE OF ACCREDITATION

Programs are required to maintain ongoing compliance with the NAAB 2020 Conditions for Accreditation. Programs need to report on any changes in the following areas that impact the program's ability to demonstrate on-going compliance. For each of the following resource areas, the program needs to indicate any significant and material changes that would impact its on-going compliance with the 2020 NAAB Conditions. Programs should note if they are addressing non-compliance in any of the following areas in a Plan to Correct but do not need to repeat documentation of progress that will be detailed in the Plan to Correct.

A: Program and Student Criteria

Instructions: Select the option that best describes if the program has significant and material changes to the curriculum, structure, or other experiences that impact the program's ability to achieve those criteria.

- ☐ The program has significant and material changes to the curriculum, structure, or other experiences that impact its ability to achieve those criteria.
- ☒ The program has NO significant and material changes in this area.

B: Curriculum Development and Faculty Resources

Instructions: Select the option that best describes whether or not the program has significant or material changes to its process for assessing its curriculum and making adjustments based on the outcome of the assessment. This includes the relationship between course assessment and curricular development, including NAAB program and student criteria and the roles and responsibilities of the personnel and committees involved in setting curricular agendas and initiatives, including the curriculum committee, program coordinators, and department chairs or directors.

If no such changes occurred, please mark no changes.

- ☒ The program has significant or material changes to the program's process for assessing its curriculum and making adjustments based on the outcome of the assessment.
- ☐ The program has NO significant or material changes in this area.

B1. (If yes): B1. Describe the significant and material changes to the relationship between course assessment and curricular development and/or the roles and responsibilities of the personnel and committees involved in setting curricular agendas and initiatives:

The department was required to develop a Plan to Correct "not met" items as determined by the NAAB Board of Directors in accreditation letter, dated December 4, 2023. Faculty are implementing the assessment changes and evidence will be included in the 2025 Plan to Correct Report/Letter.

C: Architect Licensing Advisor

Instructions: NAAB-accredited programs are required to demonstrate that they have an Architect Licensing Advisor who is actively performing the duties defined in the NCARB position description. These

duties include attending the biannual NCARB Licensing Advisor Summit and/or other training opportunities to stay up to date on the requirements for licensure and ensure that students have resources to make informed decisions on their path to licensure. If a program uses more than one architect licensing advisor, include each advisor.

Name(s):	Stanford Britt
Date of last NCARB licensing advisor summit each advisor(s) attended:	2024
Description and date of other training opportunities to stay up to date on the requirements for licensure:	NCARB President gave a presentation to all stu

D: Student Support Services

Instructions: Select the option that best describes whether or not the program has significant or material changes to support services available to students in the program, including but not limited to academic and personal advising, mental well-being, career guidance, internship, and job placement. If no such changes occurred, please mark no changes.

- ☐ The program has significant or material changes to support services available to students in the program.
- ☒ The program has NO significant or material changes to support services available to students in the program.

E: Physical Resources

Instructions: Select the option that best describes whether or not the program has significant and material changes to the program's physical resources and its ability to safely and equitably support the program's pedagogical approach and student and faculty achievement. This includes space to support and encourage studio-based learning; didactic and interactive learning; the full range of faculty roles and responsibilities; and resources to support all learning formats and pedagogies in use by the program. If no such changes occurred, please mark no changes.

- ☐ The program has significant and material changes to the program's physical resources and its ability to safely and equitably support the program's pedagogical approach and student and faculty achievement.
- ☒ The program has NO significant or material changes in this area.

F: Financial Resources

Instructions: Select the choice that best describes whether or not the program has significant and material changes to the program's institutional support and financial resources that would impact the program's ability to support student learning and achievement during the next term of accreditation.

☐

The program has significant and material changes to the program's institutional support and financial resources that would impact the program's ability to support student learning and achievement during the next term of accreditation.

- ☒ The program has NO significant and material changes in this area.

G: Information Resources

Instructions: Select the choice that best describes whether or not the program has significant and material changes to its ability to ensure that all students, faculty, and staff have convenient and equitable access to information resources, including architecture literature and information, as well as appropriate visual and digital resources that support professional education in architecture, and architecture librarians and visual resource professionals who provide discipline-relevant information services that support teaching and research.

If no such changes occurred, please mark no changes.

- ☐ The program has significant and material changes to its ability to ensure that all students, faculty, and staff have convenient and equitable access to information resources.
- ☒ The program has NO significant and material changes in this area.

H: Public Information

NAAB-accredited programs are required to ensure that the following information is posted online and is easily available to the public. Provide a link to the webpage where each item is posted.
