Program in Finance

The program in Finance prepares students for careers in a global financial marketplace and for graduate studies. Emphasis is placed on preparing students for decision-making careers. The department achieves its mission through curricula structured to enable students to comprehend, analyze, and critically assess an entity's financial condition and optimize its market value. The department endeavors to acquaint students with the wide variety of occupational pursuits in which financial knowledge is a critical element.

Finance Minor Requirements:

A minor in Finance is offered with the completion of eighteen academic credit hours designated by the department chair to include FIN 304, FIN 309, FIN 403, plus three approved FIN electives.

Economics Program

The Bachelor of Science degree program in Economics provides rigorous training in applied economic analysis. Through the lens of economics, we examine market-based applications to community and infrastructure development. All students will be exposed to applications of economic techniques used in public sector, private sector and international business environments. Through the study of standard economic models, students learn to identify, explain and describe the major features and functions of an economy. Successfully completing the major will enable students to analyze, synthesize and evaluate economic, social and business issues.

Consistent with the mission of the University, the Economics Program seeks to (1) provide both majors and non-majors high-quality economics courses that will prepare them for admission to graduate programs in Economics and related areas, or entry to professional employment or community entrepreneurship, and (2) enhance students' knowledge on the structure and operation of the U.S. market-economy in which they will work, and (3) raise the level of awareness and ability of all students to understand the importance of economic issues, including fiscal and monetary policies.

Economics Minor Requirements:

The minor in Economics requires eighteen (18) semester hours of courses in the Economics (ECO) Program including; ECO 200, ECO 201, ECO 202 plus three approved ECO electives.
