

# HAMPTON

UNIVERSITY

Campus Wireless Networks

A photograph of the Hampton University campus at dusk. The image features a prominent brick clock tower on the left, a large multi-story brick building with several gables in the center, and a modern brick building on the right. The campus is situated on a hill overlooking a body of water. The sky is a deep blue, and the water reflects the light from the buildings and the sky. The text 'Campus Wireless Networks' is overlaid in white at the bottom of the image.

A screenshot of an Android settings screen for "Pirates Wireless". The screen is dark-themed. At the top, there is a back arrow and the text "Pirates Wireless". Below this, there are several sections: "Identity" with a text field containing "firstname.lastname"; "Password" with a text field of dots and a visibility icon; "CA certificate" with the option "Use system certificates" selected; "Domain" with a text field containing "hamptonu.edu"; "Auto reconnect" with a toggle switch turned on; "EAP method" with "PEAP" selected; "Minimum TLS version" with "TLS v1.0" selected; "Online certificate status" with "Don't validate" selected; and "Phase 2 authentication" with "MSCHAPV2" selected. At the bottom, there is an "Anonymous identity" section with an empty text field.

1. Enter your INFOTECH Username and Password
2. Choose "Use System Certificates"
3. Enter Domain as "hamptonu.edu"
4. Click on Connect and you will be connected
5. Use additional settings in the picture if it does not connect with the default settings

This is a one-time process. Once completed, you'll be automatically connected the next time you enter campus.
