Has your counseling program lost faculty (retirement or resignation) in the past 12 months?

- Yes
- No**

Does your program anticipate any new faculty positions being added in the next 12 months?

- Yes**
- No

How is your accredited program(s) primarily delivered

at a campus location

on a digital platform

Do you support a residency/in-person requirement for all programs regardless of program primary delivery method?

Yes

No

5. Please provide a rationale for your response

All students are required to have three residency experiences. Residencies are held in May. . First Year – This essential experience will orientate newly admitted Ph.D. students to the University and the Counseling Department, with the goal of fostering student success. A physical tour of the campus, seminars with university officials and resource personnel will be provided. First year students will learn the process, procedures and online requirements for the program. Students will have the opportunity to be mentored and to develop professional relationships with faculty and students. Second Year – The second-year experience will expand and strengthen networks and cohort bonds. Second year residency students will participate in academic workshops, prepare for professional conferences, and develop manuscripts. Students will participate in a matching program to align their dissertation topic with faculty expertise. Students will establish a dissertation timeline, select a dissertation chair and committee members. Third Year – The third-year experience is the final formal experience required for the counselor education doctoral student. Students will present their dissertation topic, statement of the problem, and an annotated bibliography of their literature review to their committee. Students will receive constructive feedback from cohort members as well as faculty. Students will meet with their committee chair to fully discuss their dissertation topic. This is the transition from doctoral student to doctoral candidate.

Please provide a name and contact email address of the person completing this survey. This address will be used if the CACREP office has any questions about the information provided in this survey.

Debbie Hood, PhD, LPC

Final comments? Please share them below:

REMINDER: Programs/Student Outcomes must be made publicly available on your program's website. The information to be posted includes the following four data points regarding each of your accredited specialty areas: (a) number of graduates in the past year, (b) completion rate, (c) licensure or certification examination pass rate, and (d) job placement rate of

students/graduates. Posting a URL link to your completed Vital Statistics Survey report will satisfy this requirement.

Once this data has been posted, send the URL link to the location on your website via email to cacrep@cacrep.org. If your program submitted a Vital Statistics Survey last year and you have previously posted program outcomes on the program website, you need to update your program outcomes report to reflect the most current data. If the URL link to the outcomes report changes when you update this information, you need to send a copy of the new URL link via email to cacrep@cacrep.org.

You will NOT have an opportunity to receive a copy of your completed survey later. If you want a copy of your completed report, please ensure that you click the arrow at the bottom of the page and download the PDF.
