HAMPTON
UNIVERSITY

Dr. Isi Ero-Tolliver
Dean

Hampton University Undergraduate pre-health programs (HU-UPP) will catalyze HU students' success in biomedical careers (MS, MD, DO, DDS, PA, DPH, DVM, MD/Ph.D, MPH, Ph.D., PharmD, etc.), through evidence-based mentoring and pre-health competency building. HU-UPP collaborates with student organizations and partners to create opportunities for students. HU-UPP will increase diversity and excellence in biomedical sciences and health professions one HU student at a time!

Pre-health Programs

HAMPTON
UNIVERSITY
The Standard of Excellence

School of Science

Pre-health requirements

Pre-health requirements vary widely, but many schools require the following science courses: Introductory biology with lab (BIO 103 or 105-106), Inorganic (general) chemistry with lab (CHE 201 - 202), Organic chemistry with lab (CHE 301), Physics with lab (two-semester sequence), English (two semesters), Mathematics (statistics, one semester), Social sciences (psychology, sociology, two semesters), Biochemistry (CHE 303), advanced biology (one semester). You can major in any program as long as you complete the required classes for the institutions you plan to attend, demonstrate academic excellence and intellectual curiosity, and meet the competencies for admission. Meet with the HU-UPP director or an HU-UPP advisor for more information.
