Keynote Speaker

Talithia Williams, Ph. D.
Professor of Mathematics
Harvey Mudd College

Dr. Talithia Williams is a trailblazer, storyteller, and passionate advocate for making science, technology, engineering, and mathematics come alive for everyone. An award-winning professor and nationally recognized statistician, she has a gift for turning complex ideas into engaging, real-world insights that resonate with students, parents, and educators alike.

Her widely viewed TED Talk, “Own Your Body’s Data,” captures her signature style—blending humor, clarity, and purpose—to show how statistics can empower us to better understand our health and our lives. Whether she’s in the classroom, on stage, or on screen, Dr. Williams invites people to see data not as intimidating numbers, but as a powerful tool for personal and collective transformation.

As the author of *Power in Numbers: The Rebel Women of Mathematics*, she shines a spotlight on the overlooked women who helped shape the field, honoring their contributions while inspiring a new generation to see themselves in STEM. As the first Black woman

to earn tenure at Harvey Mudd College, she has broken barriers and continues to pave the way for those who follow.

Dr. Williams’s academic journey reflects both depth and excellence, with degrees from Spelman College, Howard University, and Rice University, where she earned her Ph.D. in Statistics. In 2024, she was honored with the Rice University Laureates Distinguished Alumni Award, recognizing her influential scholarship, national leadership in statistics education, and unwavering commitment to broadening participation in STEM. She is also the recipient of the 2022 Communications Award from the Joint Policy Board for Mathematics for bringing math into the homes and hands of millions.

Beyond academia, Dr. Williams is a familiar face to audiences around the world. As a host of PBS NOVA programs such as *Zero to Infinity* and *NOVA Wonders*, she brings curiosity and wonder to the forefront, exploring how science and mathematics shape our everyday lives. Her voice has also guided viewers through numerous documentaries, including *Hindenburg: The New Evidence*, *Our Beautiful Planet*, *Secrets in Our DNA*, and *The Universe: Revealed*.

Her work extends into research and global impact, with appointments at NASA’s Jet Propulsion Laboratory, the National Security Agency, and Johnson Space Center. She has also partnered with the World Health Organization to develop predictive models improving cataract care in African nations—work that reflects her commitment to using data for meaningful change.

At her core, Dr. Williams is driven by a mission to humanize mathematics. She challenges outdated stereotypes and redefines the field as vibrant, creative, and deeply connected to our world. Through her outreach and advocacy, she inspires more women and underrepresented communities to see STEM not just as a career path, but as a space where they belong and can thrive.

PRESIDENT’S CUP AWARD

All undergraduate seniors who are eligible to participate in the May 2025 graduation ceremonies, and possess a cumulative GPA of 3.5 or higher, were invited to apply for Hampton University’s historic President’s Cup Award. The prize recognizes academic excellence and exceptional performance in response to a university-wide prompt which is made available to all eligible seniors.

Each candidate for this year’s President’s Cup Award was tasked with submitting a portfolio which included the following: resume or curriculum vitae and a well-conceived essay responding to the theme below:

“Hampton University’s regaining its land-grant status represents more than a policy change—it marks a reclamation of historical purpose, public responsibility, and institutional identity within the legacy of HBCUs and the 1890 land-grant system. In a reflective and analytical essay, explore the significance of Hampton University regaining its land-grant status. What does this moment symbolize in the context of Hampton’s history, mission, and relationship to Black education, community advancement, and public service?”

FREDDYE T. DAVY HONORS COLLEGE

Dr. TaKeia N. Anthony, Director

The Freddye T. Davy Honors College is the primary component of the honors program for those who choose. This is the university program that best addresses the needs of students who possess a seriousness of academic purpose and a desire to be active rather than passive learners, have an intellectual curiosity that supersedes an obsession with grades, seek success rather than avoid failure, have the courage to take intellectual risks and the courage to demonstrate superior, ethical leadership in their chosen fields.

The Freddye T. Davy Honors College is an ancillary academic program to the Undergraduate College. The primary focus of the program is the development of intellectual, interpersonal and ethical leadership skills while fostering excellence in education, commitment to the learning process, experimentation, and a sense of learning community. It is designed to augment, enhance, and extend the undergraduate academic experience through community, exposure, and expectations.

NATIONAL and INTERNATIONAL HONOR SOCIETIES

Honor societies at Hampton University are recognized for fostering and maintaining high academic standards, citizenship and collective scholarship within the student body. Undergirding every successful organization is an active, committed and dedicated advisor who mentors, and shepherds the members of the society.

ALPHA KAPPA DELTA INTERNATIONAL SOCIOLOGY HONOR SOCIETY

Dr. Zina McGee, Faculty Advisor

Alpha Kappa Delta (AKD) is the International Sociology Honor Society. AKD was founded in 1920 at the University of Southern California by Dr. Emory S. Bogardus and became affiliated with the Association of College Honor Societies (ACHS) in 1967. Alpha Kappa Delta is also affiliated with the American Sociological Association (ASA). Alpha Kappa Delta seeks to acknowledge and promote excellence in the scholarship in the study of sociology, the research of social problems, and such other social and intellectual activities as will lead to improvement in the human condition. Membership is open to undergraduate students, graduate students, and faculty members from active chapters who meet our minimum standards. Currently, there are more than 152,000 members in Alpha Kappa Delta and over 700 chapters.

ETA KAPPA NU

Dr. Demetris Geddis, Faculty Advisor

Founded in 1904 by Maurice L. Carr and nine fellow students at the University of Illinois, Eta Kappa Nu (HKN) was originally established to help electrical engineering graduates find employment and gain footholds in their careers. Today, IEEE-HKN is 200,000 members strong and is the honor society for IEEE, the world's largest technical professional organization for advancing technology for humanity. IEEE-HKN is still dedicated to encouraging and recognizing academic excellence, impeccable character and the positive attitude needed to lead and serve others. IEEE-HKN develops promising young professionals into resilient, collaborative, global citizens and is with them through every step of their professional journey. IEEE-HKN offers access to countless experiences, opens doors to a lifetime of learning, and encompasses a global network of visionary leaders with heart.

GOLDEN KEY INTERNATIONAL HONOUR SOCIETY

Dr. Zina T. McGee, Advisor

Mr. Robert Watson, Co-Advisor

Golden Key is the world's largest collegiate honor society. Membership into the Society is by invitation only and applies to the top 15% of college and university sophomores, juniors, and seniors, as well as top-performing graduate students in all fields of study, based solely on their academic achievements. As an international honor society with chapters at colleges and universities around the world, Golden Key is committed to a high standard of scholastic achievement, and an ethos of integrity, innovation, respect, collaboration, and diversity. With more than two million members, including honorary individuals like Desmond Tutu, Elie Wiesel and Bill Clinton, Golden Key carries an esteemed legacy of achievement. Members are a community with a linkage to widely respected individuals and ideals ... all part of the continuum of excellence.

Golden Key offers its members exclusive opportunities and connections through over half a million dollars in scholarships and awards, partnerships with major corporations, career advancement and graduate programs. The Society also works with university faculty and administrators to develop and maintain one of the highest standards of education in the world. Activities have included fundraising events and community service projects for the aged population, participation in school forums to educate others about youth mental health, and presentations on social issues pertaining to marginalized groups at community organization as part of in-service training.

SIGMA TAU DELTA

Dr. Gibreel Kamara, Faculty Advisor

Sigma Tau Delta, the International English Honor Society, was established in 1924 to confer distinction for high achievement in English language, literature, and writing in undergraduate, graduate and professional studies.

The expectations placed on our members are high, but we are proud to report that our English Honor Society students do more than meet these expectations- they exceed them. In addition to maintaining the Honor Society's academic standards, the members of Sigma Tau Delta strive to be visible role models in the Hampton Roads community; throughout the past few years they have tutored high school students, sponsored film viewing and open mic poetry nights, read to preschoolers, organized a book drive to benefit children in domestic violence and homeless shelters, and hosted celebrations honoring authors ranging from William Shakespeare to Dr. Seuss.

ALPHA PHI SIGMA

Dr. David Taylor and Dr. Idonia Barrett, Faculty Advisors

Sigma was founded in 1942 at Washington State University. In 1976, it was designated as the National Criminal Justice Honor Society. This organization currently has over 360 chapters who share a commitment to learning and improving the criminal justice field. While the objective of Alpha Phi Sigma is to provide opportunities for the exploration of issues within the criminal justice system, the goal of the Gamma Tau Chapter of Alpha Phi Sigma at Hampton University is to raise awareness about minority issues in crime and criminal justice. Activities have included gift sales for fundraising activities and community service projects for disaster and trauma victims, participation in community health fairs to educate others about violence against women, child abuse and victimization, participation in a youth violence and safety conference in the city of Hampton, and presentations on criminal justice/criminology issues pertaining to women and youth of color at community organizations as part of in-service training.

The Society recognizes academic excellence by undergraduate and graduate students in the criminal justice/criminology or related field. Eligibility requirements for Alpha Phi Sigma include junior or senior student classification with a minimum of four completed criminology/criminal justice courses and a minimum cumulative grade point average (GPA) of 3.2. Graduate students must be enrolled in a graduate criminology/criminal justice program or related field with a minimum cumulative grade point average (GPA) of 3.4. Others may be elected to professional membership by the chapter if they have earned one or more degrees in the criminology/criminal justice or related field with a minimum cumulative grade point average (GPA) of 3.4.

BETA KAPPA CHI

Dr. Isi Ero-Johnson and Mr. Michael Druitt, Faculty Advisors

Scientific Honor Society is an organization that has developed a record of attracting members that are of high achievement, national acclaim in research and have shown exemplary performance in their respective disciplines. Started on the campus of Lincoln University, Pennsylvania, Beta Kappa Chi was founded by young men who believed its motto: “Science Holds the Golden Key to the Royal Palace of Knowledge.” In 1921 or 1922, the seed for the establishment of Beta Kappa Chi took root in the minds of two or three undergraduate students. Nurtured in a soil well-watered by devoted, inspirational teachers such as Dr. Harold F. Grim, biology; Dr. Arthur E. James, chemistry; and Dr. Walter L. Wright in mathematics, this seed flowered in 1923 on the campus of Lincoln University, Pennsylvania.

Hampton University’s Kappa Chapter under the sponsorship of Dr. T.W. Turner began its embryonic development in 1943. Taking their names from the Greek alphabet in the order of their founding, chapters were rapidly developed during the period 1943-1945. Having used all the letters of the Greek alphabet, new chapters were designated Alpha, Alpha Beta, Alpha Gamma, etc. from 1946-1950. Then, at the national meeting in 1950 held at Central State College, the use of Greek designation for chapters was abolished and the chapters were to be designated by the name of the institution in which they were located. Beta Kappa Chi National Scientific Honor Society was founded in 1923 by the science faculty and science students of Lincoln University, Pennsylvania. Beta Kappa Chi National Honor Society is a collegiate honor society dedicated to the promotion of high scholarship in pure and applied sciences. A member of the Association of College Honor Societies since 1961, Beta Kappa Chi now comprises 67 chapters at colleges and universities across the United States, with over 66,000 members.

The society publishes the Beta Kappa Chi Bulletin and a Booklet of Information; sponsors, stimulates, and encourages a variety of program activities through local chapters; conducts an annual national convention to transact society business and for the presentation of reports on research conducted by undergraduate and graduate members.

UNIVERSITY FACULTY AWARDS

THE EDWARD L. HAMM, SR. DISTINGUISHED TEACHING AWARD

Endowed in 1994 by Hampton University Trustee Mr. Edward L. Hamm Jr., in honor of his father, the Edward L. Hamm, Sr. Distinguished Teaching Award recognizes annually one or two members of the Hampton University faculty who have been nominated by their peers and students for this prestigious honor. Although the university has many meritorious faculty members, there are those who consistently attain the lofty height of teaching excellence, by extending their instruction beyond the classroom into the actualities of their student's world and by inspiring in their students a zest for learning and a commitment to excellence. Indeed, the recipients of this award exemplify this achievement.

THE NATIONAL W. E. B. DU BOIS HONOR SOCIETY

W. E. B. Du Bois Honor Society is a national, non-profit, academic honors organization for pre-college students, incorporated and founded on the campus of Hampton University. The Du Bois Honor Society recognizes, encourages, and promotes scholastic achievement, leadership development, and active involvement in positive community activities that solidly promote life-long learning skills. This organization reinforces the concept of honors and affirms that excelling academically is appropriate, desirable and rewarding. The mission of the Du Bois Honor Society is to nurture the intellect and motivate students who have potential but who are not attracted to nor encouraged to participate in traditional honors programs. This organization is designed to reward performance, not talent -for many are talented, but not all are successful or productive. The Society's focus is two-fold. First, student participants embrace triple Cs – character, competency, and caring. Secondly, faculty who advise and work with students do so by providing triple Es – expectations, exposure, and experiences.

The mission and program of the Du Bois Honor Society is implemented through local chapters that operate under the national standard outlined in the organization's constitution but do so in a manner that is effective and appropriate to meet the needs of each local community and constituency. Variety, cultural activities, sensitivity, ingenuity and resourcefulness are strongly encouraged. Currently, the Director of Hampton University's Honors College serves as executive director. The national office of the Society is a part of the Honors College at Hampton University. The national office handles chartering of National Du Bois Honor Society Senior and Junior chapters as well as inquiries regarding the Constitution of the Society. Additionally, the national office plans and implements an Invitational Honors Conference, coordinates the selection of recipients for awards and scholarships, and facilitates the means of communication between the national office of the organization and its affiliated chapters. The Society's Constitution strictly prohibits discrimination on the basis of race, color, sex, religion, national origin, physical disability, or social status.

HONORS DAY SEAL

The Honors Day Seal was authorized by the Hampton University Honors Council for its 1989 Honors Day Program. The seal features a drawing of the Emancipation Oak and the Latin phrase, “Scientia et Veritas.”

The Emancipation Oak symbolizes strength and continuity; Hampton University’s first students were instructed beneath its branches. The Latin words, ‘scientia’ and ‘veritas’ translate into ‘knowledge’ and ‘truth.’ This phrase embodies the academic spirit that is the hallmark of the students and faculty of Hampton University. Ms. Karen W. Best and Mr. Jack O’Kelley III designed the original seal. The original artwork was done by Mr. Jay Wright. The seal was digitally updated to its current form in 2018.

Alma Mater
Hampton: A Song of Service, Love and Loyalty

O Hampton, a thought sent from heaven above,
To be a great soul's inspiration;
We sing thee the earnest of broad human love,
The shrine of our heart's adoration.
Thy foundation firm and thy roof tree outspread,
And thy sacred altar fires burning;
The sea circling 'round thee, soft skies overhead,
Dear Hampton, the goal of our yearning!

Refrain

O Hampton, we never can make thee a song,
Except as our lives do the singing;
In service that will thy great spirit prolong,
And send it through centuries ringing!

Kind mother, we'll treasure the dear happy days,
We've spent here in life's preparation;
Yet go with brave hearts upon our chosen ways,
Of service to God and our nation;
Still wearing our colors, the blue and the white,

As pledge that our fond hearts will cherish;
A love which for thee ever shines true and bright,
A loyalty that ne'er can perish!
